

WEBSITE CARE REPORT
by AG WebWorx

Sample Client Ltd: October 2026

This is a sample of the report every Care and Growth client receives each month, with example figures. October was a quiet, healthy month: the site stayed online the whole time, every update went through after a backup, and visits from Google were up 34%. We also used this month's developer hours on a faster contact page and a new team section. Everything we did is listed at the end of this report.

<https://www.example.com> · WordPress 6.9 · PHP 8.4 · Care plan · Prepared 31 October 2026

Overview

ONLINE ALL MONTH

100% uptime, checked every five minutes from outside your server.

UP TO DATE AND BACKED UP

7 updates applied, each after a fresh backup and checked on the live site.

ONE FIX THIS MONTH

A plugin with a known security hole was patched within a day of the fix being published.

FIXED 14 OCT

Contact Form 7 security update

A security hole in the contact form plugin was published on 13 October.

Updated the next morning, after a backup, and the form was tested end to end.

Scanned every day: malware and blacklists, WordPress's own files, settings, and known vulnerabilities in the installed plugins, themes and WordPress. Nothing was open at the end of the month.

06 Uptime

100%

OCTOBER 2026

0

INTERRUPTIONS

0 minutes

TOTAL DOWNTIME

Checked every five minutes from outside your server. No downtime was recorded.

07 Performance

Google PageSpeed	Mobile	Desktop
Performance score	91	99
Largest content shown (LCP)	2.1 s	0.7 s
Layout shift (CLS)	0.02	0.01
Blocking time (TBT)	60 ms	0 ms
Accessibility	96	96
Best practices	100	100

Google PageSpeed	Mobile	Desktop
SEO	100	100

Measured by Google on 28 Oct 2026. Scores are out of 100; Google counts a page as fast when the main content shows within 2.5 s and the layout shift stays under 0.1.

08 Planned Next

November

- Add the new spring prices to the pricing page
- Compress the photo gallery for a faster mobile score
- Check the Google Business Profile links and opening hours
